

STUDY EXPERIENCE

My Name is Charles Maikel Syahailatua.

Hello Bung Willem ...

I'm very happy because I can communicate with you. Weather in Ambon is Very hot. However, the breeze on the beach is very soothing. Someday if I'm successful, I will definitely hold the snow with my own hands. That's my beautiful dream. and I'm sure, my dream will become true.

And this time, I want to tell 'bout my study experience, at the Indonesian Christian University in Maluku. I was accepted at the Indonesian Christian University Maluku, in 2019 right in August. I chose the nursing study program. The reason why I chose the nursing study program because it was my dream when I was in elementary school. Nursing is also a noble job.

At the time, when I'm start the study process. I got a scholarship from the land of Netherlands, that's a scholarship from the WEdo Foundation. I am very happy, because I'm given tuition assistance in every semester. The assistance provided by Bung Willem, Usi Liz, and friends of the foundation management is very useful for us, (Charles, Gerry, Vindy, Aldy, Laurenzo, Nony). We are very thankful to the WEdo Foundation for providing tuition assistance to all of us.

I started the study process semester 1st to semester 4th with all the good and very well. The schedule for the practice at the hospital is in 2020. But, this practice was delayed due to the Covid-19 virus outbreak. During the Covid-19 pandemic, the campus decided to do the study process is online.

At that time, I had a trouble to buying internet quota. I was given money by the WEdo Foundation, to buy Internet Quota. I am very happy because the foundation always helps me to study.

Currently, the 4th semester study process is still go on online, because in Indonesia the Covid-19 Vaccine is being administered. The study process in campus will be opened after the Covid-19 vaccine has been given to the public.

I would like to say thank's Bung Willem and friends management of the WEdo Foundation, for all the study fees given. Hopefully the WEdo Foundation will be more prosperous and more developed for the children in Maluku

I will continue to learn,

I will prove to the WEdo foundation that I can achieve my dreams.

GREETINGS HEALTHY
